How Does It Work?

From the Rewards Panel you can redeem your points any time. However, keep in mind that all rewards points expire after 180 days, or six months.

If you select a 3rd party gift card, your points will generate a coupon code. This coupon code allows you to purchase the gift card in our store for free. At checkout, enter the coupon code, and the cost will be covered entirely by your points.

After redeeming, your coupon or gift card will appear under My Rewards in your account, and you'll also receive an email confirmation. From there, you can copy and paste the code when you're ready to use it.

Your redeemed rewards will always remain visible under My Rewards by going to shop.ssandsi.com > open the Rewards Panel > click on My Rewards.

How Does It Work?

Through the Rewards Panel on our website, you can share your referral link via Facebook, X and/or email directly with a friend or colleague. You can also share it by copying and pasting the referral link in other social media platforms, SMS, WhatsApp.

Once your friend clicks on the referral link, they will be redirected to the store's page, where they'll have to enter their email address in a prompt to get their reward/discount code via e-mail. Your friend will need to manually copy and paste the code for it to be applied at checkout.

When your friend makes a purchase with the reward code, that's when the referral is considered completed. Only then you will receive an email notifying you that your friend has made a purchase with your reward/discount code, which you can find by going to shop.ssandsi.com > open the Rewards panel > click on My rewards.
